

Prepaid Mailback Recycling

We Recycle:

ITAD Technologies
Helping Companies While Helping the World

It is easy to manage your spent bulbs, ballasts, batteries, and more with **ITAD Technologies** recycle kits

Did you know that fluorescent lamps, high intensity discharge (HID) lamps, mercury devices, and batteries, contain heavy metals including mercury? *Most of these wastes are regulated by the U.S. Environmental Protection Agency.*

Our Mail-Back Program is Easy to Use!

1. Once you order, the prepaid mail-back containers will be shipped to you with everything you need to properly pack and ship your spent lamps, batteries, mercury devices, Non-PCB ballasts, smoke detectors, and electronics.

2. Simply fill the interior bag per the instructions enclosed in the kit with your spent items. Seal the bag inside the container and seal all box seams

3. Fill out the enclosed prepaid return shipping label with your facility's name and address. Call FedEx Ground to pick up your full containers for shipment to a fully permitted recycling facility and a certificate of recycling will be available online at certofrecycling.com. when the full container is returned.

Recycle Kits	Size	Capacity
Straight Lamp (4 Foot Small) Recycle Kit	6" x 6" x 49.0"	16 x T12 / 39 x T8
Straight Lamp (4 Foot Standard) Recycle Kit	8.5" x 8.5" x 49.0"	30 x T12 / 71 x T8
Straight Lamp (4 Foot Jumbo) Recycle Kit	12.0" x 12.0" x 49.0"	68 x T12 / 145 x T8
Straight Lamp (8 Foot Standard) Recycle Kit	6.0" x 6.0" x 96.0"	16 x T12 / 38 x T8
Straight Lamp (8 Foot Jumbo) Recycle Kit	8" x 8" x 96.0"	25 x T12 / 56 x T8
U-Bend and HID Lamp (2 Foot Standard) Recycle Kit	16.0" x 16.0" x 24.75"	22 T12 or 32 T8 U-bend
U-Bend and HID Lamp (2 Foot Jumbo) Recycle Kit	22.0" x 22.0" x 24.75"	46 T12 or 80 T8 U-bend / 60 400watt HID's
Compact Fluorescent Lamp (CFL) (3.5 Gallon) Recycle Kit	5 Gallon Pail & 14" x 14" x 16" Box	45 to 90 CFL's
Mercury Device (3.5 Gallon) Recycle Kit	3.5 Gallon Pail & 13" x 13" x 13" Box	1lb total mercury max
Dry Cell Battery (3.5 Gallon) Recycle Kit	3.5 Gallon Pail & 13" x 13" x 13" Box	50lbs
Dry Cell Battery (1.0 Gallon) Recycle Kit	1 Gallon Pail & 10" x 10" x 10" Box	25lbs
Dry Cell Battery (.5 Gallon) Recycle Kit	1/2 Gallon Pail & 8" x 8" x 8" Box	10 lbs
Sealed Lead Acid Battery (2 Gallon) Recycle Kit	2 Gallon Pail & 12" x 12" x 12" Box	35lbs
Primary Lithium Battery (3.5 Gallon) Recycle Kit	3.5 Gallon Pail & 13" x 13" x 13" Box	41.2lbs
Lamp Ballast (TSCA Exempt-No PCB) (5 Gallon) Recycle Kit	5 Gallon Pail & 14" x 14" x 16" Box	22 Standard Ballasts or 50lbs
Electronic Scrap (2 Foot Jumbo) Recycle Kit	22" x 22" x 24.75" Box	75lbs
Smoke Detector (5 Gallon) Recycle Kit	5 Gallon Pail & 14" x 14" x 16" Box	50lbs

ITAD Technologies

This program is not available in Puerto Rico, Alaska, & Hawaii. Additional charges apply for Maine. Helping Companies While Helping the World

EZ on the Earth Mail-Back Program is Easy to Use!

1. Once you order, the prepaid mail-back containers will be shipped to you with everything you need to properly pack and ship your spent lamps, batteries, mercury devices, Non-PCB ballasts, smoke detectors, and electronics.
2. Simply fill the interior bag per the instructions enclosed in the kit with your spent items. Seal the bag inside the container and seal all box seams with 2" to 3" packing tape.
3. Fill out the enclosed prepaid return shipping label with your facility's name and address. Call FedEx Ground to pick up your full containers for shipment to a fully permitted recycling facility and a certificate of recycling will be available online at certofrecycling.com. when the full container is returned.

Information Specific to Recycle Kits

Straight Fluorescent Lamps Recycle Kits (40SM, 40ST, 40JM, 80ST, 80JM, 10-40JM, 10-80JM)

Properly recycle 8 foot and shorter fluorescent lamps. Kit includes a heavy-duty cardboard box, cardboard liner, heavy duty plastic liner, zip tie to seal liner, Velcro tabs to close flaps between use, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. Additional charges will apply for "shattershield" lamps and UV lamps.

Acceptable lamps include: Straight and U-bend fluorescent, High Intensity Discharge (HID), and other large lamps.

U-bend and High Intensity Discharge (HID) Lamps (20ST, 20JM)

Properly recycle U-bend and circular fluorescent, High Intensity Discharge (HID), and other large lamps. Kit includes a heavy-duty cardboard box, cardboard liner, heavy duty plastic liner, zip tie to seal liner, Velcro tabs to close flaps between use, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling.

Acceptable lamps include: U-bend and circular fluorescent, High Intensity Discharge (HID), and other large lamps.

Compact Fluorescent Lamp Recycle Kits (50CF, 66CF)

Properly recycle Compact Fluorescent Lamps, small High Intensity Discharge Lamps, incandescent and other miscellaneous lamps. The 5 gallon kit includes a plastic pail (made from 100% recycled plastic), cardboard box (pail must be return shipped in the cardboard box), heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. The consumer box includes a 6 inch cube cardboard box in place of the pail.

Acceptable lamps include: Compact fluorescent (CFL), High Intensity Discharge (HID), incandescent, halogen, and other small lamps.

Dry Cell Battery Recycle Kits (35BT, 10BT, 05BT)

Properly recycle dry cell batteries. Kit includes a plastic pail, cardboard box (pail must be return shipped in the cardboard box), heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. All battery terminals must be taped (this is especially important for batteries over 9 volts).

Acceptable batteries for this kit include: Alkaline / Nickel Cadmium (NiCad) / Zinc-Carbon (Zn) / Rechargeable Lithium-ion (Li-Ion) / Nickel-Metal Hydride (NiMH) / Mercury / Silver-Oxide

Prohibited for this kit: Non-rechargeable Primary Lithium Batteries including Lithium-Sulfur Dioxide (LiSO₂), Lithium Manganese Dioxide (LiMnO₂), Lithium Thionyl Chloride (LiSOCl₂), all lead acid and wet cell batteries, and batteries containing more than 25 grams of lithium or more than 5 grams of lithium per cell.

Sealed Lead Acid Battery Recycle Kit (20LA)

Properly recycle sealed lead acid batteries. Kit includes a 2 gallon plastic pail, cardboard box (pail must be return shipped in the cardboard box), heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. All sealed lead acid battery terminals must be fully insulated.

Acceptable batteries for this kit include: Sealed Lead Acid Batteries

Prohibited for this kit: Leaking or broken batteries, car batteries, and all dry cell batteries including Lithium-ion and Primary Lithium Batteries including Lithium-Sulfur Dioxide (LiSO₂), Lithium Manganese Dioxide (LiMnO₂), Lithium Thionyl Chloride (LiSOCl₂).

Primary Lithium Insulated Recycle Kit (35PLBT)

Kit includes an insulated plastic pail, cardboard box (pail must be return shipped in the cardboard box), electrical tape and baggies to insulate batteries, heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. **All terminals must be insulated.**

Acceptable batteries include: Non-rechargeable primary lithium batteries including: Lithium-Sulfur Dioxide (LiSO₂), / Lithium Manganese Dioxide (LiMnO₂) / Lithium Thionyl Chloride (LiSOCl₂) / Rechargeable Lithium-ion batteries

Batteries strictly Prohibited include: Wet cell batteries / Lead Acid Batteries / Lithium batteries containing over 5 grams of lithium per cell or 25 grams total in a battery / Broken, cracked or damaged batteries

Lamp Ballast Recycle Kit (50BL)

These recycle kits are for Non-Polychlorinated Biphenyl (No-PCB) containing ballasts only. **Ballasts containing PCBs have not been manufactured since 1979. PCB containing ballasts are highly regulated and are forbidden to be shipped via FedEx® Ground. Only ship ballasts that state "No PCB" on the ballast. As the generator, it is your responsibility to ensure only non-PCB ballasts are placed in this pail. If you suspect you have PCB ballasts, please call 602-276-4278 to properly manage PCB containing ballasts.**

Mercury Devices Recycle Kit (3.5HG)

Properly recycle mercury containing devices including thermostats, mercury switches, medical equipment, and other mercury devices. Kit includes a 3.5 gallon plastic pail, cardboard box (pail must be return shipped in the cardboard box), heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. **Federal law requires devices are intact and the total volume of mercury in this container is less than one pound.**

Acceptable mercury devices: Thermometers, thermostats, mercury switches and relays, medical devices.

Electronic Scrap Recycle Kit (20EL)

Properly recycle electronic scrap including computers, mobile and landline phones, monitors, LCD screens, circuit boards and other electronic devices. Kit includes a heavy duty cardboard box, cardboard liner, heavy duty plastic liner, zip tie to seal liner, Velcro tabs to close flaps between use, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling.

Before placing Electronic Waste in this container, please remove all batteries, mercury containing lamps, and mercury devices that may be regulated by the Federal Universal Waste Rule (40 CFR 273). Do not include any radioactive smoke detectors or radioactive tritium exit signs. Electronic Waste Regulations may also vary from state to state.

Smoke Detectors Containing Americium 241-Recycle Kits (50SD, 66SD)

Properly recycle and dispose of smoke detectors containing Americium 241. The 5 gallon kit includes a plastic pail (made from 100% recycled plastic), cardboard box (pail must be return shipped in the cardboard box), heavy duty plastic liner, zip tie to seal liner, a prepaid return label, and a document to keep for your records to obtain your Certificate of Recycling. **This program is only for smoke detectors containing Americium 241.** Detectors containing other radioactive material are not acceptable in this container. The consumer box includes a 6 inch cube cardboard box in place of the pail.
